

Press release
December 7th 2023

Desfilis takes part in the exclusive negotiations for Apheon's acquisition of a majority stake in Fiabila

A global leader specialized in nail products, Fiabila records a turnover of more than 137 million euros, with about ten state-of-the-art production sites around the world for just over 440 clients, including the largest traditional international cosmetic brands.

The successful conclusion of the negotiations would notably allow Fiabila to increase its international development.

The transaction is expected to be finalized during the first quarter of 2024.

The Desfilis team was led by:

- Partner Sébastien Sayn-Urpar, for corporate aspects,
- Partner Marion Kahn-Guerra, for employment law aspects.

Apheon was assisted by De Pardieu Brocas Maffei for the other aspects of the transaction.

About Desfilis

Desfilis is an independent French business law firm, founded in 1920 by the former General Counsel of the Renault group, and historically close to family groups.

Desfilis advises listed and unlisted companies, investment funds, family groups, entrepreneurs and executives, and supports its clients in the main areas of business law: mergers & acquisitions, private equity, financing, tax, employment law, restructuring and business litigation.
